**ABSTRACT**

Deliverable D4.8 is the second prototype of the Integrated Decision Support System (IDSS), which has been developed in ECODISTR-ICT and used in the Warsaw and Antwerp cases.

# 1 LINK TO THE PROTOTYPE SOFTWARE

The prototype software version 2.0 of the ECODISTR-ICT Integrated Decision Support System (IDSS) developed in the project is open source and open access. The prototype has been tested in the case study locations Warsaw and Antwerp. The reader is directed to Ecodistr-ICT deliverable 5.3 for more information with regards to these test sessions. The prototype software version 2.0 has successfully been demonstrated to a wider audience at the final conference of Ecodistr-ICT in Antwerp (Belgium) on October 27<sup>th</sup> 2016.

The prototype software version 2.0, including the instructions for future developers, are located and publicly accessible at the open software repository GitHub: <https://github.com/ecodistrict>. The instructions for users will be published in deliverable D5.3, due 30<sup>th</sup> November, 2016.
